GOLD ND Flax

Gold ND flax was released in 2014 by the North Dakota Agricultural Experiment Station. The North Dakota Crop Improvement and Seed Association has rights to production and distribution of seed. Gold ND is a yellow-seeded variety with very high yield potential. Gold ND has good oil content and oil drying quality. Gold ND is medium tall and has medium maturity. This variety has blue flowers and medium seed size. Gold ND is resistant to flax rust and has good tolerance to flax wilt. To help ensure genetic purity, this variety is protected under Plant Variety Protection Title V and must be sold as a class of certified seed.
