*That a State funded technician for the agronomy program at the North Central Research Extension Center may be reappointed.*

Randy Mehlhoff made a motion to support this resolution as brought forward with a second from Tim Goeser. Motion carried.

The following resolution was brought forward by Randy Mehlhoff:

**Whereas,**

*The Langdon REC is one of five NDSU foundation seed producing centers serving ND producers,*

**Whereas,**

*The Langdon REC has been producing foundation grade seed for over 60 years providing NEND growers with the highest quality seed available,*

**Whereas,**

*The NEND district of the NDCISA produces the highest volume of seed in ND,*

**Whereas,**

*Seed companies, independent growers and others depend on foundation grade seed to fund their operations in the future by being able to sell registered and certified seed,*

**Whereas,**

*The seed cleaning system and equipment at the Langdon REC is over 60 years old, worn out, inefficient at 15 bushels per hour capacity and unable to condition crops such as pulses and others,*

**Whereas,**

*Being able to grow and condition and sell foundation grade seed brings a huge economic benefit to the regions agricultural industry,*

**Therefore, be it Resolved,**

*The NEND district of the NDCISA supports the construction of a new foundation seed cleaning facility to allow the Langdon REC to continue producing foundation grade seed for growers in ND.*
