Characteristics

Yield	High
Protein	High
Winter Hardiness	Excellent
Test Weight	High

AAC GOLDRUSH

AAC Goldrush is a next generation, high yielding CWRW with excellent winter hardiness. It comes with good standability and strong rust resistance, and is rated intermediate to fusarium head blight (FHB). AAC Goldrush is one of the first winter wheat varieties to have this high of FHB resistance. Its pedigree: CDC Falcon/CDC Osprey//Crimson/CDC Falcon shows why this variety will be very popular with growers in the region. CDC Falcon has been long known as a "winter hardy yielder". Try AAC Goldrush today and see the difference for yourself.

STRENGTHS

- Easy to Harvest
- Semi-Dwarf
- Resistant to both Stem & Leaf Rust
