

# AAC JULIUS YELLOW FIELD PEA

Developed by Agriculture & Agri-Food Canada, Swift Current

## Characteristics

**Yield** Very High

**Protein Package** Strong

**Easy to Harvest**

## AAC JULIUS

AAC Julius is a new high yielding yellow pea with an overall smaller seed size that growers are looking for. AAC Julius has good protein, is resistant to powdery mildew, and is resistant to shattering with its strong seed coat. This very stable semi-leafless yellow pea will be an excellent choice for many producers in the region.

## STRENGTHS

- Excellent Standability
- Tall Plant Stature
- Small Seed Size Wanted By Industry
